NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 30 June 2017

1. BASIS OF PREPARATION

These condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants (the “**HKICPA**”) and the applicable disclosures required by the Rules Governing the Listing of Securities (the “**Listing Rules**”) on The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”).

These condensed consolidated financial statements should be read in conjunction with the financial statements for the year ended 31 December 2016. The accounting policies and methods of computation used in the preparation of these condensed consolidated financial statements are consistent with those used in the financial statements for the year ended 31 December 2016.

In the Current Period, the Group has adopted all the new and revised Hong Kong Financial Reporting Standards (“**HKFRSs**”) issued by the HKICPA that are relevant to its operations and effective for its accounting year beginning on 1 January 2017. HKFRSs comprise Hong Kong Financial Reporting Standards; Hong Kong Accounting Standards; and Interpretations. The adoption of these new and revised HKFRSs did not result in significant changes to the Group’s accounting policies, presentation of the Group’s financial statements and amounts reported for the Current Period and prior years.

The Group has not applied the new HKFRSs that have been issued but are not yet effective. The Group has already commenced an assessment of the impact of these new HKFRSs but is not yet in a position to state whether these new HKFRSs would have a material impact on its results of operations and financial position.

The Group had incurred loss of approximately HK\$271.4 million for the six months ended 30 June 2017 and net current liabilities and net liabilities of approximately HK\$37.1 million and HK\$123.9 million respectively at 30 June 2017. These conditions indicate the existence of a material uncertainty which may cast significant doubt on the Group’s ability to continue as a going concern. The Group may be unable to realize its assets and discharge its liabilities in the normal course of business.

In November 2016, the Company submitted a resumption proposal to the Stock Exchange which involves, among others, (i) the proposed acquisition of interest in a power and heat supply business in the People's Republic of China (the "PRC") with emphasis on energy saving and environmental protection; and (ii) the proposed disposal of the entire equity interest in IC Spectrum (Kunshan) Co., Limited (德芯電子(昆山)有限公司) ("ICSC") (the "Proposed Restructuring").

On 30 June 2017, the Company submitted the new listing application and the circular to the Stock Exchange and the Securities and Futures Commission of Hong Kong ("SFC") for their review and comment. The Company expects that the circular will be despatched on or before 31 August 2017.

The Directors adopted the going concern basis in the preparation of condensed consolidated financial statements on the assumption that the Proposed Restructuring will be successfully completed, and that, following the completion of Proposed Restructuring, the Group will continue to meet in full its financial obligations as they fall due in the foreseeable future.

2. SEGMENT REPORTING

The Group manages its businesses by divisions, which are organised by a mixture of both business lines (products and services) and geography. In a manner consistent with the way in which information is reported internally to the Directors for the purposes of resources allocation and performance assessment, the Group has presented the following two reportable segments. No operating segments have been aggregated to form the following reportable segments.

The Group has presented the following two reportable segments. These segments are managed separately. Each segment offers very different products and services:

1. Trading business
2. Manufacturing of semiconductors

The trading business derives its revenue primarily from the trading of semiconductors/electronic products/components and timber.

The manufacturing of semiconductors segment was in the construction phase and had not yet started commercial operations.
